Éditions Bérangel

Created in 2002, les éditions Bérangel offer a multidisciplinary approach in support of health. Our authors are specialized professionals in psychosomatic medicine, psycho-genealogy, relation to self and to other, psychoanalysis, psychology, and astrology. The editorial line focuses on the important potential of birth, love, grief and listening. The alternative approaches to health deal with prevention, anticipation, and collaborations. Our works are complementary to medicine and are not substitutes for it. The Berangel House is also interested in sociology, philosophy and the neurosciences. Sciences are internationally virtuous. "Dare to write the irrational rationally."
